

Simple | Flexible | Reliable | Secure

Room Systems for Audio and Video Conferencing

Finding the right solution to enable flexible video conferencing throughout your organization is no easy task. EVOTEK simplifies the process. Our advisory services team will meet with your stakeholders to understand the existing challenges and concerns. We analyze each room to determine the required lighting, room acoustics, and equipment needed to ensure your video conferences are production quality while guaranteeing every user can efficiently conduct, join, and start a conference from any room or device with confidence.

Any room, any device:

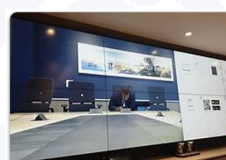

Conference Room

Huddle Room

Board Room

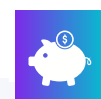

NOC & SOC

TECHNOLOGY SOLUTIONS:
