

CUSTOMER SUCCESS

M&A: Merging and Modernizing Critical Infrastructure

- Defense Contractor
- Multiple International Locations
- Approx. \$17 Billion in revenue
- Around 40,000 employees

PROBLEM

- Nested M&A with legacy systems and services
- Technical debt
- Operational needs not being met
- Immature security posture
- Lack of visibility

SOLUTION

Using a discovery, redesign, implement approach, we...

- Conducted Network Assessment to understand the current state
- Combined Networks
- Cleaned up and modernized the network

...Incorporating the new security architecture throughout.

CRITICAL POINTS

- Completed this in 5 months
- 32 domestic and 17 international sites
- Deployed over 900 switches

Employing...

- 13 Engineers
- 3 Architects
- 1 Manager
- 1 SDM

IMPACT

The driving differentiation for value to the client came down to deep expertise and dynamic capability of engineering and automation capabilities from EVOTEK.

- Minimized down time (negative impact on production)
- Reduced TCO through automation
- Reduced risk through modernized security posture
- Streamlined network troubleshooting through increased visibility
- Modernized infrastructure capabilities
- Eliminated technical debt
